

K101 & K102 BI-METAL THERMOSTAT

LIMITED
1 Year
Warranty

Bi-Metal Thermostat
22AMP @120, 208/240, 277V

Features

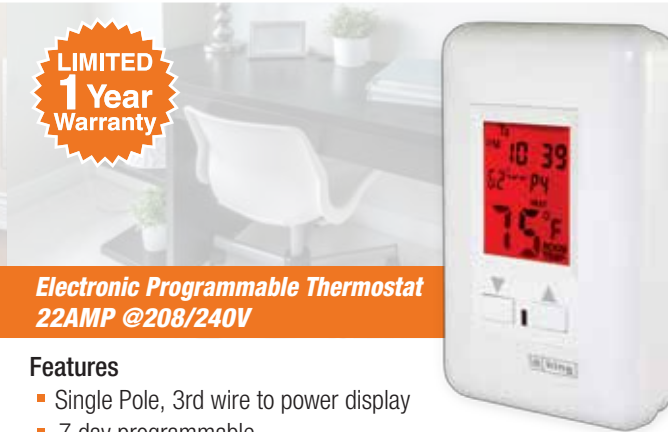

- Single & Double Pole models available
- Fahrenheit & Celsius dials
- Temperature range 41° - 90°F (5° - 32°C)
- Advanced Bi-metal sensor improves temperature control at $\pm 3^\circ\text{F}$
- Sits flush against the wall allowing more wiring room
- No ground wire design
- For use on baseboard, fan forced & radiant electric heaters

***K101-C SINGLE POLE COOLING THERMOSTAT Also Available**

ESP230-R PROGRAMMABLE THERMOSTAT

LIMITED
1 Year
Warranty

Electronic Programmable Thermostat
22AMP @208/240V

Features

- Single Pole, 3rd wire to power display
- 7 day programmable
- Comfort color™ backlight display (Red @ 75°/Blue @ 65°)
- Temperature range 44° - 95°F (7° - 35°C)
- 3 minute cycle rate reduces temperature swings
- System On/Off switch, red LED Heater ON indicator
- Shallow design allows more wiring room inside electrical box
- For use on baseboard, fan forced & radiant electric heaters

2016 Thermostats

ES120-R & ES230-R THERMOSTATS

LIMITED
1 Year
Warranty

Electronic Thermostat
22AMP @120 or 208/240V

Features

- Single Pole, 3rd wire to power display
- Non-programmable
- Backlit Display for easy viewing
- Temperature range 40° - 95°F (4° - 35°C)
- 3 minute cycle rate reduces temperature swings
- System On/Off switch, red LED Heater ON indicator
- Shallow design allows more wiring room inside electrical box
- For use on baseboard, fan forced & radiant electric heaters

F802GFCI FOR FLOOR HEATING APPLICATIONS

LIMITED
1 Year
Warranty

GFCI Protected Thermostat
15AMP @120 or 208/240V

Features

- 7 day programmable
- 4 Preset heating schedules
- Floor sensor included
- Double Pole-Dual voltage (120V or 208/240V)
- 15 Amp Max (Resistive)

3 Year
Warranty

ATMOS

16AMP @120 or 208/240V

Features

- SP Battery powered or Double Pole line voltage
- Programmable with Atmos Smart phone App
- Backlit Display for easy viewing
- Temperature range 41° - 90°F (5° - 32°C)
- Program 4 or 6 time periods for maximum flexibility
- Electronic sensing for accurate temperature control (±1°F)
- For use on baseboard, fan forced & radiant electric heaters

Bluetooth Enabled: King's Atmos combines the latest in Bluetooth technology with a sleek modern design, offering unparalleled user control. It's highly accurate sensing technology saves up to 28% on heating costs. This feature achieves higher comfort levels with reduced temperature swings as compared to economy models. With its simple, intuitive smart phone app interface you can control all thermostats in your home with ease.

Bluetooth: Range is 30 to 60 ft. depending on wall construction.

Atmos Smart Phone App

- ✓ Connect Via Bluetooth For Convenient Programming & Use
- ✓ Easy To Navigate Menus For Quick Programming
- ✓ Control Multiple Thermostats For Total Home Control
- ✓ Available for Android & IOS.

Personalized Presets Thermostat
16AMP @120 or 208/240V

Features

- 3 programmable presets (Home/Away/Sleep)
- SP Battery powered or Double Pole line voltage
- Oversized backlit buttons
- Backlit Display for easy viewing
- Clean, beveled style suits any decor
- Temperature range 41° - 90°F (5° - 32°C)
- Fully vented cover allows air sensing in all directions
- Electronic sensing for accurate temperature control (±1°F)
- For use on baseboard, fan forced & radiant electric heaters

*Default Settings

Simple, Real-Time Control. Simply press the custom comfort temperature button that applies and have confidence that the room will reach optimal temperature within minutes. Right out of the box, use the factory-default temperatures or personalize by simply updating the defaults with new personalized comfort settings.

K202E

TEMP 360°

LIMITED
1 Year
Warranty

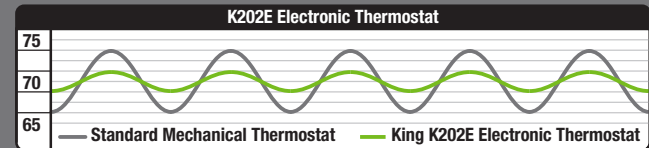

Electronic Thermostat
16AMP @120 or 208/240V

Features

- Double Pole-Dual voltage (120V or 208/240V)
- Electronic sensing for accurate temperature control (±1°F)
- Fahrenheit & Celsius dials
- Temperature range 40° - 90°F (4° - 32°C)
- System On/Off switch, red LED Heater ON indicator
- Temperature lock™ feature (75°F Max) - for property managers
- For use on baseboard, fan forced & radiant electric heaters

Accurate Electronic Manual Control

Use the K202E to control baseboards, fan forced and radiant electric heaters. 120V or 208/240V. The electronic sensor offers the most accurate temperature control available, keeping the room within 1°F of the set temperature. Standard mechanical thermostats have a greater margin for inaccurate measurement, which can leave temperatures to vary by 5°F or more. Easily regulate energy consumption and keep energy costs low by installing the K202E thermostat.

75°F maximum temperature limiter feature guarantees room temperature never exceeds 75°F. Ideal for property managers or users with children, making sure that the heat will not go above 75°F if the dial is accidentally turned.
